#### **EXPERIENCE**

## Front-End Developer, Mastery Coding

Century City, CA - July 2018 - September 2019

Mastery Coding enriches students with a comprehensive computer science curriculum using multi-sensory technology education and virtual reality. In my role as a Front-End Developer I:

- Wrote React components that implemented GraphQL mutations and queries on requests to the backend.
- Collaborated with the Lead UX Designer to deliver wireframes to all members of the engineering department using Sketch and Zeplin.
- Created and styled modular and scalable component systems in React.
- Performed end-to-end testing on React components with Storybook.js.

## Front-End Developer, CSUN META+LAB

Northridge, CA — August 2017 - December 2017

META+LAB is a student-led software development firm at California State University Northridge. In my role as a Front-End Developer I:

- Built interactive websites and mobile applications using vanilla HTML, CSS, and JavaScript.
- Prepared in-depth prototypes for mobile applications using Adobe XD.

#### Projects worked on:

- A client facing web application that teachers and students used to study code based learning curriculum.
- Internal tools used by educators and developers to display their content to customers.
- Other projects can be found at: https://github.com/bcanedo4

#### **EDUCATION**

### California State University of Northridge

Graduate --- 2013 Fall - 2018 Spring Computer Science Major GPA — 3.37
