EXPERIENCE

Front-end Developer, Mastery Coding
Century City, CA - July 2018 - September 2019

At MasteryCoding I developed new user-facing features with React and GraphQL.

Front-end Developer/Creator, CSUN META+Lab
Northridge,CA — August 2017 - December 2017

As a Creator at California State University of Northridge META+Lab, I design and create websites and mobile applications using HTML, CSS, JavaScript, Adobe XD, and Laravel.

Designer/Builder, Bishop Alemany High School Robotics Team
Mission Hills, CA — 2009-2013

I joined the robotics club at Bishop Alemany High School and we took part in the FRC Robotics Competition, where students are given the task to build a robot in only six weeks.

Applications Built

- "MemeMote" A Web Application that allows users to react to photos using their face. It utilizes Google's Cloud Vision API.
- A React-Redux Application that finds the Temperature and Humidity for a city in the United States that the user types in.
- Other projects: https://github.com/bcanedo4

EDUCATION

California State University of Northridge
Graduate --- 2013 Fall - 2018 Spring
